TylerSLaurenceau@gmail.com
github.com/tylerlaurenceau

SUMMARY

I'm an ambitious and adaptable front-end developer with an outstanding attention to detail. I learn quickly through hands-on experience and research. I'm ready to take on and overcome new challenges in tech each day!

SKILLS

Javascript
Jquery
AngularJS
HTML
CSS
Sass
Git
Test Driven Development

EDUCATION

Georgia Highlands
2015 - 2016
Pursued a degree in Computer Science

RELEVANT EXPERIENCE

The Iron Yard | Atlanta, GA
Front-End Engineering Student
Jan - Apr 2017

- **View** - A photo sharing site where users can post, like, and comment on pictures
    - A teammate and I built this during a 3-day hackathon.
    - Uses HTML, Sass, and AngularJS for the front-end
    - github.com/TylerLaurenceau/hackathon-frontend

- **SouthBound** - A well polished restaurant website
    - Built with HTML, Sass and Jquery and uses the Flickr API to pull photos requested by the client
    - github.com/TylerLaurenceau/restaurant-project

- **Lucid** - An object-oriented RPG-style battle system where users take turns battling with an AI
    - Created using HTML, Sass, and Jquery to battle an AI that uses varying skills for different scenarios
    - github.com/TylerLaurenceau/Lucid-Demo

- **BarkSpark** - A dating site created to help dog lovers find other dog lovers. It also uses google maps integration to show dog friendly locations, near the user.
    - A teammate and I created BarkSpark as a fun way to solve a problem that many dog lovers are having.
    - Front-End is built with HTML, Sass, and AngularJS
    - Back-End is built with NodeJS, and is hosted on Heroku
    - github.com/TylerLaurenceau/bark-spark

The Iron Yard | Atlanta, GA
Kids Programming Class Volunteer Teacher
2017

- Led a children's programming class of students grades 2 to 8 and helped them understand the basics of programming including variables, conditionals, and objects

On the Border Mexican Grill and Cantina | Atlanta, GA
Restaurant Server
2016 - 2017

- Interacted with customers, took and placed their orders, served food and drinks, and cleared empty plates
- Learned how to quickly adapt to a stressful and fast work enviornment
- Maintained service station during, and after shift

Zaxby's | Acworth, GA
Cashier
2013 - 2015

- Learned about teamwork and leadership in the workplace
- Maintained a cash register throughout the shift, ensuring accuracy with every transaction
